

INSTRUCTIONS TO AUTHORS

2005 Proceedings of the International Association of Aquatic and Marine Science Libraries and Information Centres (IAMSLIC)

Submission Timeline:

Please send the manuscript of your paper to Kris Anderson, Editor of the *IAMSLIC Proceedings*, by 1 **October, 2005**, in order for it to be included in the published *Proceedings*. Papers will be accepted at the Annual Conference, and for a short period thereafter, but submission by 1 **October** is preferred, to allow the *Proceedings* to be published earlier.

Submission Format:

Papers can be sent as e-mail attachments in MS-DOS format as a word processor file. The preferred format is MS Word, but acceptable word processor formats are nearly all standard ones, including PDF.

All papers will be reformatted and printed in the same standard format and font. Consequently, papers should not be split into sections, and pages should not be numbered. PowerPoint or other slides can be used as illustrations to accompany text as necessary but the manuscript must be in regular text. Submissions consisting of only PowerPoint illustrations will not be published. Final text size will be 5 x 7.5 in. (13 x 19 cm) and all tables and illustrations should be formatted to fit this size.

Posters presented at the Conference may be published as an abstract, an extended abstract, or a short paper, depending on what the author submits to the editor. A paper based on a poster may not exceed 5 pages.

Illustrations:

1. All illustrations should be formatted to fit the final text size (5 x 7.5 in. = 13 x 19 cm)
2. If your manuscript includes illustrations that have been published anywhere previously, please include written copyright permission for reproduction from copyright holder or other appropriate person(s).
3. The IAMSLIC Proceedings are photocopied to make multiple copies. Most half-tone photos do not photocopy well, unless they have been scanned. If submitting photos, please test to make sure the picture can be photocopied, and if necessary, submit the photo in a different form that can be photocopied.
